

A message of Love for all Humanity Dated Oct. 1, 2001

This message is ^{not} new but Great God had been delivering the most important duty for His children on this earth to perform for which He had designed Human. To convey this ~~so~~ most important & special information He had to come down himself to approach and contact the suitable ones who can understand Him. There was no other way which could be adopted. The main reason is that God gives or puts in directly all understandings, blessings, power and grace after awakening the soul who is the only receptacle to the gifts of God. Body, mind & intellect and anything of this world cannot be of any help in this respect. We human being when helped by Word God working in a human body, which we call Master, is accepted in His kingdom. This procedure is only available through mercy and grace of God. No body can deserve it by any means at the level of body, mind & intellect. The soul after having been released of numberless bondages and unlimited burdens is cleaned by Master at the time of initiation and begins to hear the holy sound (God) and also can see light of God full of all knowledge and wisdom of God. This is the start of life of soul which can only be in kingdom of God. Lower down soul is drowned in big & deep oceans of darkness & nothingness of mind and matter. This is eternal truth that we human beings rise up from animal kingdom as soul and start living in kingdom of God with Him. While living in this world a simple and inexpensive life as much as possible we are to work for reaching the goal of human life by meditating at least three hours a day to get released more & more the darkness inside us and to find ourselves connected permanently with holy links of God in the form of light and sound. Then we will find no more control of mind and matter. Mind and intellect will be totally ~~under~~ Will of God & will not be able to work under control of negative power. Difficulties and problems will be taken care of by God. Power which has its super power over everything and every one in this world and all His upper creation. We will be able to bring peace and Will of God which all the living beings will be able to enjoy here and hereafter. This message no-doubt will reach only to initiate but they all are requested to develop their souls and then will be able to help the suffering world. Try to convey this message to all you can contact.

With all love & good wishes,
Yours Affectionately Thakur Singh
